Merry Christmas from Ignite International

Volume 8, Issue 4

December 2010

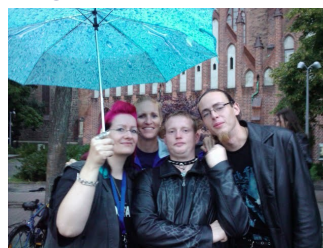

2010 in Review - Nicaragua, Israel, Palestine, Germany, Cuba

In 2010, Ignite was privileged to reach thousands of people with the love of Christ in 5 nations. The first stop was our 21st trip to Nicaragua to help the National Volleyball Team, strategize with partners for implementation of a discipleship course into many cities, and visit some students sponsored by Ignite families for a Christian education.

Next, we faced the world's

More than anywhere, it was in Bethlehem, Palestine that we saw the depth of love in God's master plan for all mankind. Everything changed at the cross!

The conversation changed from "I don't believe in God at all" to "I believe in God...I'm just afraid of Him." May we never tire of sharing Him, they actually DO want to know!!! Ecc. 3:11

most famous conflict head-on as our team lived for a week in the city of Christ's birth and defied the myths of harm and danger, while encouraging people who love and serve the same Jesus and desire His peace. Our team competed with the Israel Jr. National Volleyball Team and trained weekend teams in Nazareth. GO visit the Holy Land, make sure you see PEOPLE, not just places!!

August took us to Berlin where our team embraced the diverse culture and history, reached out in competition to both the beach and indoor volleyball communities and engaged in street ministry with our partners. BEAUTIFUL city!

In September we enjoyed a powerful week in Cuba, where we are excited to see athletes making an impact for Christ!!

One of the best in the nation during his professional soccer career, now making a difference in his country through sports ministry. It was a blessing to pray for his family and to call them friends!

2011 in Preview

Looking ahead, we have an anticipation like never before. We will remain faithfully committed to our current partnerships, and we look forward to new impact in places like Liberia and Cambodia with friends whose efforts will literally restore these nations with

The Explosion is Imminent

God's amazing love. We are convicted as we recognize the power that we have been granted in the language of sport that is embraced by more than 90% of the world. We understand that there are countless ones who might never darken the inside of a church, but they

will go to a "ball game", or they will train with their team. The door that is open to us is WIDE, and we will touch as many as we can with as much of His REAL love as we can, for as long as we can, wherever we can.

WILL YOU HELP US REACH THE NATIONS?
